

Minisoft ARCS3 Connector for iManage Work

Frictionless Integration Minisoft ARCS3 connector for iManage Work allows users to integrate their ARCS3 document production with iManage Work Matter Workspaces.

Comprehensive Review ARCS3 is a fully comprehensive revenue management system that integrates with professional-service billing systems to streamline collection processes, efficiently track WIP/AR and manage unresponsive accounts.

Document Synchronization Your ARCS3 document production can now be stored against your matters, giving users access to the latest collections information from within the firm's Document Management System.

Improved Efficiency Reducing task times by eliminating the need to manually move ARCS3 documents to the relevant Document Management Workspace Document Folder.
