

# Chat GPT for Law Firms

Built on Microsoft Azure OpenAI Service and .NET, Blue Car Technologies can now offer a secure implementation of ChatGPT 3.5 for use in your organization

## Features and Benefits:

- All chats and responses recorded in SQL Azure for security and monitoring purposes
- Host in your own Microsoft Azure tenant
- Option to integrate with your own content using Microsoft Cognitive Services, and Semantic search or just use the regular GPT 3.5 Large Language Model
- Integrate with Azure Active Directory

The screenshot displays the BlueCarBot chat interface. On the left is a dark sidebar with navigation options: '+ New chat', '@chatgpt, please edit this business report and suggest more appropriate wording that will make this', '@chatgpt, please edit this business report and suggest more appropriate wording that will make this', '@chatgpt, please edit this essay', 'SHOW MORE', 'Community', 'Dark Mode', 'Submit Feedback', and 'Logout'. The main area is titled 'BlueCarBot' and features three columns: 'Examples', 'Features', and 'Warnings'. The 'Examples' column contains three prompts: 'Explain the SFDR regulations in simple terms', 'Provide 10 boiler plate warranties for an SPA', and 'How do I file a trademark dispute with the USPTO'. The 'Features' column lists: 'Remembers the whole conversation', 'User can provide follow-up corrections', and 'Trained to not accept inappropriate messages'. The 'Warnings' column lists: 'May occasionally produce inaccurate responses', 'Can occasionally produce biased content', and 'Limited understanding of world and events after 2021'. At the bottom, there is a checkbox for 'Allow personal information' and a text input field.
